Subject: Microsoft Settlement

Renata Hesse Trial Attorney Anti trust Devision : Renata Never in history before has it been so important to embrace the future of technology. Microsoft is a major contributor to the future and the Technology Industry. We have reached a point in the U.S. where we can no longer afford to attack the ones that are doing good for America. People need to open their eyes and look upon the real threats of this nation. America should get this settlement behind us and move on with the future. Because the key to it all is everyone working together! Sincerely Delilah Weeks Minolta Business Solutions
